

In order for Sussex Drug and Alcohol Action Team's to run the DANOS units of the Health and Social Care NVQ level 3 we need to recruit:

# Expert Witnesses and NVQ Assessors

The Health and Social Care NVQ programme will run from November 2006 at Sussex Downs Adult College and Chichester College.

## EXPERT WITNESS

L20 Award involving 1 day training programme with home study and standardisation meetings to ensure fairness and quality over a period of 1 month.

## ASSESSORS

NVQ Assessor training is more in-depth. A few places can be provided to those who would wish to oversee the full production of student NVQ portfolios.

There are a number of DAAT subsidised training places available at the colleges on a first come first serve basis. Organisations providing their own in-house NVQ assessment can receive discounted college students costs with the colleges.

Once people are qualified as either Assessors or Witnesses.

**On completion of either award you will be able to assess the DANOS competence of fellow drug workers in the sector.**

*"We always welcome expressions of interest from people in the sector interested in tutoring opportunities on the college courses."*

## TRAINING COURSES AVAILABLE ON A ROLLING BASIS DEPENDENT UPON DEMAND
